Welcome to our newest site: Royal Bournemouth Hospital, which opened on 24th November!

Southampton CTU Christmas Closure

We will be closed from **5pm Friday 22 December 2017** until **9am Wednesday 3 January 2018**.

During this time, the trial mailbox will not be monitored.

Urgent medical and eligibility queries which cannot wait until the CTU reopens should be directed to the Chief Investigator, Dean Fennell df132@leicester.ac.uk or 07870370708.

SAEs should be reported as usual to ctu@soton.ac.uk or by fax 0844 7740621.

Drug orders cannot be processed until 2nd January 2018. Please confirm that pharmacy have sufficient stock before randomising any new patients.

A message from Gareth Griffiths (Director of SCTU and CI for methodology)

Many thanks for your involvement in this trial. We have managed to open this trial quickly (less than 8 months from Cancer Research UK's funding approval to first patient in) and recruitment has started extremely well. In addition to answering the question of the benefit of immunotherapy in this setting we are also in the process of developing further translational analysis plans using CONFIRM samples and a qualitative study to undertake patient interviews to assess their views on any side effects of immunotherapy. We will be in touch once we have secured funding and have a plan of action for these substudies. Hope you all have a great Christmas.

Regards Gareth

TOP RECRUITERS (based on number of randomisations)

In November:

1. Leicester
2. Aberdeen
3. Southampton & Velindre

In 2017 (so far):

1. Leicester
2. Wythenshawe
3. Velindre

Happy Holidays...see you in 2018!
